

CHEMISTRY

A LEVEL

COURSE TITLE

A level Chemistry

EXAM BOARD

OCR

METHOD OF ASSESSMENT

Examination

KEY TOPICS

Periodic table

Elements

Physical chemistry

Synthesis

Analytical techniques.

COURSE HIGHLIGHT

Chemists have all the solutions! Our students tend to study chemistry as they have a genuine interest in the subject. The subject explains a lot of phenomena, on which the world is dependent.

The practical tasks tend to be a favourite part of chemistry for a lot of students! This allows you to practise key lab skills and see the different reactions that a compound can undergo.

CAREER LINKS

Pharmacist

Toxicologist

Petrochemical Business Development Manager

Lab technician

Virologist
