

Level 3 BTEC Sport

Unit 1

Anatomy & Physiology

The anatomy & physiology unit is an externally assessed unit, so a written exam will be taken during the first year of the course.

As it is an externally assessed unit it is worth double the points of an internal unit. The table below outlines the difference:

Points Awarded

Type	Pass	Merit	Distinction
Unit 1 - External	12	20	32
Unit 2 - External	12	20	32
Unit 3 - Internal	6	10	16
Unit 4 - Internal	6	10	16

Unit 1 comprises of 5 different learning aims, all taking on a different element of the human body.

We would like you to complete the booklet for learning aim A, the skeletal system. This needs to be fully complete before the start of the course. Completing it will help give you a head start when it comes to learning the whole unit at the academy and give your teacher an idea of your knowledge on the topic.

If you need any help/advice you can email me at j.wilson@macademy.org.uk. Workbooks for all systems are available so if you would like another to complete just let me know.

Stay safe & hopefully see you soon.

Miss Wilson
